

Do you want a job that lets you work with your hands while enjoying the benefits of a great company? Do you like working on a team? Manufacturing parts that will make a real impact on the world? This could be the opportunity you're looking for!

Due to growth, we are expanding our manufacturing departments and looking for mechanically-inclined, hard-working individuals to join our JD Team. The main responsibilities of this job include working with your hands, installing hardware in machined parts, assembling components, and marking parts as instructed by the provided blueprints and work instructions.

This position is best suited for individuals who are:

- Mechanically inclined
- Detail Oriented
- Has basic blueprint reading skills
- Enjoy working in a team
- Willing to work overtime
- Motivated to expand mechanical knowledge and skills
- Wanting an employer who will invest in them
- Able to complete work that requires fine hand motor skills
- Willing to learn or have knowledge of good visual inspection techniques
- Ability to complete work that requires fine hand motor skills
