FY 2022 Capital Development and Improvement Requests
Capital Development
A Capital Development request has been submitted to the Utah Division of Facilities Construction and Management (DFCM). Due to recent state budget reductions, these requests will not be considered by the state this year. However, the projects requested will be added to the state’s five-year plan as projects which should be expected to be considered during the next five years.

The projects submitted are:

- Davis Tech Strategically Phased Main Campus Renovation $5,849,270. Over the next few fiscal years, this is a strategically phased approach to back fill spaces that become vacant as programs are moved to the new Allied Health Building. There are currently four phases planned for this project which will update and refresh much of the existing main building on campus.
- Institute Land and Building Acquisition $2,500,000. We have been working with representatives from the Church of Jesus Christ of Latter-day Saints regarding the acquisition of the institute building which is adjacent to the Davis Tech Campus. We have estimated the cost based on commercial properties. Based on other similar acquisitions at educational entities, we hope that the actual cost will be much less. This has been a lengthy process.

Capital Improvement
The following is a listing of Davis Tech projects submitted to the Division of Facilities and Construction Management (DFCM) for Capital Improvements to existing facilities.

Priority 1:
- Expand back-up power infrastructure to Main Campus Life Safety Systems, Access Controls and IDF Closets
Priority 2:
- Roofing Project above Welding, Automotive and Composites
Priority 3:

FY 2021 Final Budget approval

In the June 18, 2020 Board meeting, the Board approved the pro-forma Fiscal Year 2021 Budget as presented, including authorizing Davis Tech Administration to enact budget reductions and increases using the budget reduction principles and strategies as outlined in the meeting and to report back to the Board in the September 2020 Board meeting.

On April 16, 2020 the Utah Legislature approved House Joint Resolution 301, Joint Resolution Urging Fiscal Responsibility. Among other things that resolution “… urges state agencies, … including … technical colleges to:

**FY 2022 Legislative Budget Request approval**

Davis Tech Administration has been working on the development of the Fiscal Year 2022 Legislative Budget Request using guidelines provided by the Utah System of Higher Education.

This request is due to the Office of the Commissioner of Higher Education by October 1, 2020. A meeting will be held with the Commissioner on October 7, 2020 to review and refine the request. The request will be combined with those from the other higher education institutions and forwarded to the Utah Legislature for consideration in the legislative session which begins January 19, 2021.

In June 2020 the Legislature reduced the Fiscal Year 2021 budgets of most state agencies by 2.5%. For Davis Tech that was $487,100. The request for Fiscal Year 2022 should not be substantially higher than that amount unless there is significant justification for the higher request.

Items currently under discussion to be included in the request are as follows:

- Welding Technology (expansion)
- Heavy Equipment Operator (new)
- Medical Assistant (expansion)
- Heating and Air Conditioning (expansion)
- Manufacturing Technology (expansion)

A motion to approve the FY 2022 Legislative Budget Request was made by Tucker Morgan, seconded by Troy Wood. Motion passed.

**President’s Report**

Since the last meeting of the Board, the new Utah System of Higher Education has launched. What’s more, the college has closed out the FY 2020 budget, and gained a clearer picture of the FY 2021 budget, continued to adapt to the impacts of COVID-19, survived an historic windstorm, completed the new Bouwhuis Allied Health Building, and more. The year-end quarterly report was shared. The process of launching technical education training pilot for incarcerated youth with DHS Division of Juvenile Justice System has started.
Davis Tech shaped a model for continuity of mission and business operations. Demand combined with capacity restrictions have led to several full programs. An Equity, Diversity, and Inclusion Committee has been chartered and a coordinator was named to lead in these efforts.

**Board of Trustees Roles and Responsibilities discussion**

The Utah System of Higher Education comprises 16 institutions, all with unique missions, but which are also working toward common goals and a unified vision. To ensure the System is efficient, effective, and delivers world-class instruction and research, the Board of Higher Education and institutional boards of trustees must align responsibility and authority. The Board of Higher Education has established the responsibilities and authorities for the Board, the boards of trustees, presidents, and the commissioner.

Commissioner Woolstenhulme and Deputy Commissioner Landward reviewed the responsibilities and authorities for the institutional boards of trustees. It is a living document and will be updated as necessary.

Tucker Morgan made a motion to adjourn the meeting.

**Adjournment**

The meeting adjourned at 5:55p.m.
