OCCUPATIONAL ADVISORY COMMITTEE COMPANIES **281**

**TIFFANY SKELTON:** Tiffany applied for jobs and found that many people applying for the same jobs were more qualified than she was. Tiffany wanted better opportunities for herself and her six children and decided to enroll in the Pharmacy Technician program at Davis Tech. Her four part-time jobs were not enough to pay bills and pay for college, so Tiffany applied for, and received, the Davis Technical College Foundation Scholarship and that has helped to fill the financial gap. Andrea Buchanan, her instructor says, "Tiffany has not faltered in her commitment to receiving an education. She is truly an inspiration to everyone around here."

**HARRISON JENKENS:** Harrison is a Web and Graphic Design student at Davis Tech and dreams of turning his hobby into a career. Similar to many students, he holds down multiple jobs—a barista at Starbucks and a work study in marketing at Davis Tech. Outside of work and school, you'll usually find him engaging in social activities (pre-COVID) or yelling across hallways (post-COVID).

"While 2020 has been a journey, it doesn't stop me from being me or being a proud student of Davis Technical College."
