[This policy is based on documents which are copyrighted by U.S. Bancorp.]

4.1. Overview

4.1.1. The purpose of the College Purchasing Card Program is to establish a more efficient, cost-effective method of purchasing and payment for small-dollar transactions. The program is designed to supplement a variety of processes including petty cash, check writing, low-value authorizations, and small dollar purchase orders.

4.1.2. The College is responsible for paying the issuing financial institution for purchases made using purchasing cards.

4.1.3. All cards are issued per College policies. Card usage may be audited and/or rescinded at any time. The person whose name appears on the Purchasing Card is the only person entitled to use that card.

4.1.4. These policies and procedures provide the guidelines under which a cardholder may utilize their Purchasing Card. The cardholder's signature on the Cardholder Agreement indicates understanding of the intent of the program and agreement to adhere to the guidelines established by the program. Authorized cardholders will receive a College purchasing card upon completion of purchasing card training and submitting a signed agreement to accept the purchasing card and may begin using the card immediately upon receipt. Cardholders should contact the College Fiscal Services Department with questions.

4.1.5. Record-keeping will be essential to ensure the success of this program. This is not an extraordinary requirement. State Finance and Purchasing policies require retention of receipts, competitive quotations, etc. As with any charge card, cardholders must retain receipts for their own protection and the College's protection.

4.1.6. Cardholders should remember that they are committing State funds each time they use the College Purchasing Card. This is a responsibility that cannot be taken lightly!

4.2. General Information

4.2.1. The program helps to eliminate the use of small dollar purchases orders, petty cash, and payment requests.

4.2.2. The program is NOT intended to avoid or bypass appropriate purchasing or payment procedures. Rather, the program complements the existing processes available.

4.2.3. Cards should be issued to full time faculty and staff only; exceptions may be allowed on a case-by-case basis as deemed necessary by the controller.

4.2.4. The program is not intended to replace the current travel program, and only authorized individuals may use their cards for travel related expenses.

4.2.5. The card is not to be used for personal use.

4.2.6. The program can be used for in-store purchases as well as mail, internet, and telephone, orders.

4.2.7. When items which will be delivered to the College are ordered with a Purchasing Card, the cardholder should notify Shipping and Receiving.

4.2.8. The use of a departmental or unassigned purchasing card is prohibited. Individual purchasing cards will be issued to a single cardholder. Each cardholder is responsible for the security of their card and the transactions made with the card. The card is issued in the name of the employee, and it will be assumed that any purchases made with the card will have been made by the employee. Failure to comply with the guidelines established for this program may result in severe consequences, **up to and including termination of employment.**

4.3. Purchasing card Limits and Merchant Category Codes (MCC)

4.3.1. Newly issued Purchasing Cards will be given a monthly credit limit of \$500. Justification is required for any requested credit limit above \$500. Approval must be obtained from the cardholder's administrator and the Vice President and Chief Financial Officer.

4.3.2. Purchasing Card limits may be temporarily adjusted by the Controller to meet specific purchasing needs.

4.3.3. All purchasing cards will be ordered using the default Merchant Category Codes (MCC) of the State of Utah's purchasing card program and may be adjusted by the Controller to accommodate specific cardholder purchasing needs.

4.3.4. Executives, Directors and designated employees will have higher monthly limits and access to Merchant Category Codes (MCC) that allow the use of purchasing cards for the purchase of supplies, prepared meals, airline tickets, hotels, and other travel related expenses.

4.3.5. Supervisors may request specific MCC codes be allowed on individual purchasing cards to facilitate the purchases of needed items. The Controller will evaluate the request and grant exceptions on a case-by-case basis.
