

DAVISTECH

UPDATES

SEPTEMBER 2023

Partnering with our community for career and economic development

UPDATES TO THE NORTH SIDE OF CAMPUS

1. CONSTRUCTION TRADES YARD

East of the Barlow Building, we are adding a construction trades yard and a sandbox. This new outdoor space will support our Construction Trades and Heavy Equipment Operator programs.

2. CDL DRIVING RANGE

Davis Technical College is dedicated to respond to industry demand. On September 25, the College added a Commercial Driver's License (CDL) program to our school of transportation. The site will be developed as a driving range to train future drivers on required skills.

3. STATE FUELING SITE

The Utah Division of Fleet Operations will be building a fueling site to better support the fueling needs of Davis Technical College. This site will also be available to other state governmental agencies.

HAVE A SNACK ON US

We invite you to come visit our campus and to see what the DavisTech Bookstore has to offer. In addition to textbooks and training supplies, our Bookstore also sells snacks, drinks, and office/school supplies. You can also come take a look at the DavisTech merchandise available for purchase.

Included with this newsletter, you'll find a voucher good for a snack and a drink, courtesy of the College. To use the voucher, please present it to the cashier at the beginning of the transaction.

To find the Bookstore, you can park in either the visitor parking lot just west of the Rotunda or in lot P2 on the southeast side of the main building. Walk in the door, straight down the hall and look for the hanging sign that says 'BOOKSTORE'.

QUESTIONS

If you have any questions about these projects, please e-mail bryce.fox@davistech.edu.
