

Notice Regarding Conviction of a Crime

Employers in the healthcare industry (physicians, dentists, hospitals, clinics, etc.) may be reluctant to employ applicants convicted of a crime. Graduate placement is a vital function of the school; therefore, each student must understand that obtaining employment in the medical health field may be difficult if they have been convicted of a crime.

Immunizations

Before participating in a clinical rotation, Davis Tech requires that students:

1. Provide documentation of **current** (annual) screening for tuberculosis by a QuantiFeron Gold blood test. If you show positive PPD/TB, you must show proof of adequate medical work-up and proof that tuberculosis is currently not communicable (chest X-ray report, physician, or health department written note).
2. Provide documentation of the Hepatitis B vaccine series or Hep B titer. **Note:** Parents or guardians of minor students can waive this requirement, but they must complete a Hepatitis B Waiver. Adult students are not eligible for this waiver.***
3. Provide documentation of the Measles, Mumps, & Rubella (MMR) vaccine series or MMR titer.
4. Provide documentation of the Varicella (Chickenpox) vaccine series or Varicella titer.
5. Provide documentation of the Tetanus-Diphtheria-Pertussis (Tdap) vaccine within the last ten years.
6. Provide documentation of the annual Influenza vaccine.
7. Provide documentation of the COVID-19 vaccine series.

Drug Screening

Students must pass a urinalysis drug screening before the externship.
