Student Financial Aid Policy - Confirming ISIR Database Matches: Citizenship

Effective Date: 27 June 2022

1. Purpose

- 1.1. This policy is established in compliance with federal regulations to promote institutional integrity in the administration of federal financial aid programs. Specifically, this policy addresses the institutional requirement to resolve any questions of citizenship on the part of a student in application for federal aid. To be eligible to receive federal financial aid a student must be a citizen or an eligible non-citizen. All students who apply for aid will have their social security numbers compared with the Social Security Administration database to confirm citizenship status. In addition, eligible non- citizens will have their status checked against the Department of Homeland Security (DHS) database. This policy is written to establish guidance in resolving 'C' codes that are the result of citizenship questions
